

MANAGED BY SARVA VIDYALAYA KELAVANI MANDAL
SMT. S.G. ENGLISH MEDIUM PRIMARY SCHOOL
S.V. ENGLISH MEDIUM PRIMARY SCHOOL
NR. GH-6 CIRCLE, SECTOR-23, GANDHINAGAR

NEWSLETTER – 14
JUNE '21 TO OCT. '21

Dear SG & SV Families,

I, Sukhram Chaudhari would like to introduce myself as the new Principal of S.V. English Medium Primary School. I am honoured to have been selected to one of the school in Kadi Sarva Vidyalaya, Gandhinagar which is known far & wide for its fidelity to excellence, but more importantly, to children. Not only I'm eager to begin working with your children, but I look forward to endeavor we will do together.

Over the past 15 years, I worked as a teacher & administrator, but I consider my most important chore to be that of a child proponent. I will devour a lot of time with your children, getting to know their personalities, learning techniques & inquisitiveness & accordingly we will plan out our academic activities. As old African proverb states, "It takes village to raise a child." I am passionate to see your children through your eyes. I can't wait to share with you the amazing things they do throughout their days during online classes like they share their activity videos, pictures, their imagination, creativities, etc. under our teacher's guidance.

Warm regards,
Sukhram Chaudhari
Principal, SV School

CORONAVIRUS DIARIES

“Good health is the biggest wealth you can have.”

This pandemic taught us that being fit is of great importance in one's life. Good mental & physical health helps a person to enjoy life fully. So we should take good care of both.

- Chauhan Jayani (8-B)

‘Covid-19 has taught us to accept a situation as it is. It is important to be safe than to be sorry. We all are in the same situation so never step back in the battle of Corona.’

- Pithadiya Meshwa (7-B)

‘This Pandemic taught us about ourselves. It is reminding us to take care of ourselves everyday. It is reminding us to appreciate ourselves. There are positive things that come out of every crisis. So, stay positive & Stay safe.

- Rathod Rahi (7-A)

“Hard times teach us valuable lessons.”

People learnt many lessons during this pandemic. It is lifetime learning for many of us. Corona virus was terrifying phase in everyone's life. This pandemic has made us to realize the value of human lives, relations, health & many more.

Let's see what we have learn form Covid-19 Pandemic:

- Be willing to adapt & change with the times.
- Health is better than wealth.
- Always strive to be kind & grateful for everything.
- Embracing your mental health is essential. (Coping with stress during a pandemic)
- Hobbies are healing.
- Life is all about learning. Learn to hope, live, laugh & learn new things even during a situation as difficult as a Global Pandemic!
- We continue to learn everyday because learning never stops.

Yes, we continue with our lives in new normal!

NEVER
stop
LEARNING

Ancient Games

1. PALLANGHUZI: Pallanghuzi, is a traditional ancient mancala game played in South India especially Tamil Nadu and Kerala. Later the game spread to other places including Karnataka and Andhra Pradesh in India as well as, Sri Lanka and Malaysia. Variants are called as Ali guli mane (in Kannada), Vamana guntalu (in Telugu), and Kuzhipara (in Malayalam).

- Daksh Samir Bhogayata(4th MARS)

2. GYAN CHAUPEER: Gyan Chauper is a dice game derived from chaupar from ancient India, popularly known as Snakes and Ladders. It was from India that it spread to the rest of the world. It was a very popular game that was played not only for entertainment but also as a way to instruct on morality. The central concept of the game is the liberation from bondage of passions.

- Daksh Samir Bhogayata(4th MARS)

3. GANJIFA: Ganjifa is a card game and type of playing cards that is associated with Persia and India. After Ganjifa cards fell out of use in Iran before the twentieth century, India became the last country to produce them. Ganjifa cards are circular or rectangular, and traditionally hand-painted by artisans. The game became popular at the Mughal court, and lavish sets were made, from materials such as precious stone-inlaid ivory or tortoise shell. Typically Ganjifa cards have coloured backgrounds, with each suit having a different colour. Different types exist, and the designs, number of suits, and physical size of the cards can vary considerably.

-Daksh Samir Bhogayata(4th MARS)

4. PACHISI: Pachisi is a cross and circle board game that originated in Ancient India. It is described in the ancient text MAHABHARATA under the name of “Pasha”. The name of the game is derived from the Hindi word *Pachis* which means “Twenty – Five” , the largest score that can be thrown with the cowrie shells: thus this game is also known by the name “Twenty – Five”.

ORIGIN OF संस्कृतम्

Sanskrit was used as a means of communication and dialogue by the [Hindu](#) Celestial Gods, and then by the Indo-[Aryans](#). The term 'Sanskrit' is derived from the conjoining of the prefix 'Sam' meaning 'samyak' which indicates 'entirely', and 'krit' that indicates 'done'. Thus, the name indicates perfectly or entirely done in terms of communication, reading, hearing, and the use of vocabulary to transcend and express an emotion. An extraordinarily complex language with a vast vocabulary.

Sanskrit Manuscript

Sanskrit is the primary sacred language of Hinduism, and has been used as a philosophical language in the religions of Hinduism, Buddhism, and Jainism. Sanskrit is a standardized dialect of Old Indo-Aryan, originating as Vedic Sanskrit as early as 1700-1200 BCE.

One of the oldest Indo-European languages for which substantial documentation exists, Sanskrit is believed to have been the general language of the greater Indian Subcontinent in ancient times. It is still used today in Hindu religious rituals, Buddhist hymns and chants, and Jain texts.

Sanskrit traces its linguistic ancestry to Proto-Indo-Iranian and ultimately to Proto-Indo-European languages, meaning that it can be traced historically back to the people who spoke Indo-Iranian, also called the Aryan languages, as well as the Indo-European languages, a family of several hundred related languages and dialects. Today, an estimated 46% of humans speak some form of Indo-European language. The most widely-spoken Indo-European languages are English, Hindi, Bengali, Punjabi, Spanish, Portuguese, and Russian, each with over 100 million speakers.

Sanskrit Literature began with the spoken or sung literature of the Vedas from c. 1500 BCE, and continued with the oral tradition of the Sanskrit Epics of Iron Age India, the period after the Bronze Age began, around 1200 BCE. At approximately 1000 BCE, Vedic Sanskrit began the transition from a first language to a second language of religion and learning.

PATEL OMI ANILKUMAR (8-B) & YADAV DEVRAJ (6-Jupiter)

COMIC

1 Hello, doreman!! would you pls introduce yourself.

2 Just tell your name and something about you.

3 Hello Mr. Sunny!! How do I Introduce Myself?

4 Oh ho!! If you know my name is doreman, than why you ask?

5 He is being too smart

6 OK, tell me How many stars are there??

7 What if they are less than that??

8 Whatever!!!

9 There are 1 billion Trillion stars in our galaxy!!!

10 Than They might be visiting other galaxy.

11 And what if they are more than that?

12 Very Brave!!!

13 Than some of them are visitors from other galaxy who came to meet their friends!!!

14 Yahooo ooo!!!
Bamboo capter

Jinal Chavda (8-B)

"The Hand that rocks the cradle Rules the world".

A mother is parent, teacher, friend, companion, guide, philosopher and a lot more. History stands testimonial to their multidimensional role and influence. Her role and influence in child's life has been immortalized even by the Shastra's and religious texts worldwide. You will find almost every successful person somewhere down the line giving credits to his/her mother for everything.

A mother is a nurturer, so anyone who gives the warmth and comfort of motherly love is mother or mother figure in child's life.

When child start attending school the alma mater provide him with the needful and thus becomes a nurturer for a better and bright future of the being and world as whole.

- Hiral Nanavati.

Trio Harvey J. Alter, Michael Houghton and Charles M. Rice won Nobel Prize in medicine for discovery of hepatitis C virus

Hepatitis, is a Greek word means "liver inflammation", is usually caused by a viral infection, although alcohol misuse, environmental toxins, and autoimmune disease can also lead to the same condition. HCV (Hepatitis C Virus) is a small enveloped RNA virus. The discovery of hepatitis C virus was important for public health in two ways, "First, the discovery enabled testing for screening blood for the agent that was responsible for blood-borne transmission of hepatitis and liver cancer risk. Second, knowledge of the causative agent facilitated drug development, particularly protease inhibitors that can treat existing hepatitis C virus infections and cure the disease in many cases."

Hepatitis C: The End of the Beginning and Possibly the Beginning of the End.

- Sana Kalyani

ADDICTION: England's National Health Service began treating video game addiction this year, after the **WORLD HEALTH ORGANIZATION** listed "**GAMING DISORDER**" in its International classification of Disease.

"WHAT MAKES VIDEO GAMES ADDICTIVE?"

Playing releases dopamine in to our system which gives us a feeling of pleasure and tells our brain to "DO IT AGAIN."

"SIGNS AND SYMPTOMS OF VIDEO GAMES ABUSE"

- Falling grades
- Not sleeping enough, feeling of fatigue
- Free-time is used almost exclusively for playing video games
- Irritability when not playing video games
- Neglect of hygiene
- Disinterest in other activities
- Increased anxiety

PROS OF ONLINE GAMES

- It improves concentration, thinking Speed, memory etc.
- It makes our mind free and ease tension, depression, etc.
- It makes our mind sharp powerful, if we play brain task games.
- We can explore and learn many things from it.

CONS OF ONLINE GAMES

- It wastes our important time.
- We get involved in it, which cause mental depression.
- Our outdoor playing skills and other activities like craft don't get time and therefore are less used or played.
- Many children waste their study time in games.
- Playing online games causes eyes infection and eye problems (Sometimes blindness).

"OUR ROLE"

- Video games can play a positive role in our children's lives, but we need to be there to help set limits.

INTERVIEW WITH CORONA WARRIOR

INTERVIEWER: YESHA PANDYA

INTERVIEWEE: DR. HEMA JOSHI (EPIDEMIOLOGIST BAMS)

Yesha (Interviewer): Since when you have been working in this field?

Dr. Hema (Interviewee): I have been working in the health department since 2007.

Yesha (Interviewer): What was the difference in the way you used to do your job earlier and during this pandemic situation?

Dr. Hema (Interviewee): This pandemic is a critical situation. The virus has spread very fast. Mortality rates had increased. We neither kept a day off the whole last year nor we celebrated any festivals. Specially in the early months of corona outbreak the situation was tough.

Yesha: Why do you think these corona waves are approaching?

Dr. Hema: This is a contagious virus which spreads widely and has cleared many stages. When we get the solution of one stage, the virus enters another stage, and thus it has become hard to stop it but we will soon find a solution.

Yesha: What could be the possible situation of this pandemic in the near future?

Dr. Hema: If the government guidelines and proper precautions are not taken by the public, then this virus is surely gonna become very dangerous. The main thing is that we shouldn't be casual towards this situation.

Yesha: How have you dealt with the near ones of Corona patients?

Dr. Hema: It's a tough feeling. We always try to say them not to panic. The relatives of patients usually get worried due to the lack of facilities such as oxygen, injections and beds in hospitals but we try to fulfil their needs.

Yesha: What were your efforts?

Dr. Hema: We tried to serve them whole heartedly. We were doing day and night duty and also answered their questions through our +helpline numbers and solved their issues.

Yesha: How was your overall experience as a corona warrior?

Dr. Hema: It is a tough situation for all doctors, policemen, general public, everyone. We are always trying to stay calm to solve public issues and working constantly for the betterment of this situation.

Yesha: Lastly, any message to the people.

Dr. Hema: We corona warriors are always there to help you, Don't be afraid of the situation. Stay safe, take all precautions and have a healthy life.

YESHA PANDYA J. STD.8-D

FASCINATING FACTS ABOUT BIRDS

Hooded Pitohui are found in New Guinea. It is one of the few known poisonous birds, containing a range of batrachotoxin compounds in its skin, feathers and other tissues. These toxins are thought to be derived from the diet and may function both to deter predators and to protect the bird from parasites.

-Vaishnav H. Gandhi (4th Mercury)

Penguins are flightless birds found mostly in the Antarctic but they are spread across much of the southern hemisphere and really cross the equator. A group of Penguins in the water is called a raft but on land they are called a waddle.

- Dhumketu Pandya (3rd Venus)

Hummingbirds are birds native to the America. They are the smallest of all birds species. The bee humming bird of kumbha weighs only 1.95 gram. They visit 1,000- 2,000 flowers throughout the day. The fastest recorded rate of flapping its wings is about 80 beats per second. Hummingbirds are the only bird that can fly backwards.

- Yogeshkumar Panchal (3rd Earth)

Many ducks have mastered the art of sleeping with one eye open. When they nap in groups the ducks on perimeter keep guard by sleeping with one eye open, while the other ducks sleep more deeply. Those on the outside of the circle also keep one side of the brain awake.

- Prachi Patel (4th Mars)

Albatross birds are large seabirds. These master of the sky can fly for hours or days while barely flapping. They sleep while flying.

- Suhani Prajapati (3rd Oak)

POETRY

ONLINE CLASS

I wake up in the morning,
Brush my teeth and take a bath,
And I get ready for my online class,
Online class, my online class
It is good and it is fun.
It starts with prayer,
We join with books and notebooks,
Studying and writing,
Enjoy games and puzzles,
Lots of fun in online class.
Online class, my online class
It is good and it is fun.

NATURE

What is Nature?
It's full of wonders and colours,
It's found in rain, sea with sweet water of
river and fountains,
It has a big shoulders names as mountains,
It has trees which are so high,
With beautiful birds flying in,
Vast and beautiful sky.

THE LIGHTS SAY...

The red light says, stop, stop, stop
Stop! Don't follow bad habits.
The yellow light says, wait, wait, wait,
Wait and think before you work.
The green lights say, go, go, go!
Go and spread love to everyone.
