Dr. Saleena Nair

Principal, SG School

Dear Readers,
Greetings of the day

"OPPORTUNITIES ARE GOLDEN, ACCEPT AND CHALLENGE THEM"

"The golden opportunity you are seeking is in yourself. It is not in your environment; it is not in luck or chance, or the help of others; it is in yourself alone."

- Orison Swett Marden

The creation of God is marvellous with a combination of different flavours. Life is full of unlimited opportunities which lead to success. You can achieve anything when you do not miss any opportunity that nurtures your inner will power to overcome the difficulties day by day. For that, your participation is more important and it has many advantages which will help you to know more about yourself. Similarly, when you take part as a competitor you are fully utilising that golden opportunity by testing your boundaries. The biggest competition begins from within. No situation is permanent and no opportunities will stay back for you with the passage of time. So, whether you win or lose your positive approach towards it is what matters in the long run. An agreeable truth reveals that no winner or loser is permanent. The law of nature teaches us that time brings miracles in everyone's life by giving golden opportunities.

Regards

GOOD HABITS GOOD LIFE

A person with good habits make steady progress in studies, career and personal life. Good habits should be instilled during childhood however it can be practiced at any age. Habits are good for our health. They can make or break our chances of achieving and maintaining our lifestyle goal.

Importance of good habits in life is a well-known fact. They are vital to everyone in society. They are the key to healthy lifestyle. Good habits set a foundation of our life and allow us to reach our goals, eliminate wastage, self- motivate and even to earn respect.

- Good habits are very important in life.
- Good habits make you a good person.
- Good habits help you to achieve success.
- People with good habits are respected everywhere.
- Good habits make you every one's favourite.
- Good habits help you to develop self discipline.
- Good habits can improve your quality of living.
- Good habits gives you good friends and a good environment.
- Good habit is a key to happiness. A person with good habits makes steady progress in studies, career and personal life.
- Patience, kindness and empathy are one of the most important good habits that children should be taught about.
- Respecting elders is one of those good habits that should be inculcated in children right from their childhood.
- Practicing good habits changes our overall personality.
- Successful people such as Sachin Tendulkar, Bill Gates, Amitabh Bachchan and Shri Narendra Modi are all disciplined and follow good habits.

Story Time

The Greedy Friends

Once upon a time there lived three friends in a village. They were very poor. They decided to go to city to earn money. When they were walking through the forest, they found a bag full of money. They planned to divide the money among themselves. As they had been walking for a long time, they were tired and hungry. One of them went to a neighbouring village to buy food. The other two friends stayed in the forest. After buying food he mixed some poison in the food to kill his friends. He wanted to get all that money after killing them. In his absence, the other two friends decided to kill their friend and divide the money among themselves. So, when the third friend came back, the other two attacked him and killed him. Then they ate the poisoned food and died. In this way, no one could get the money.

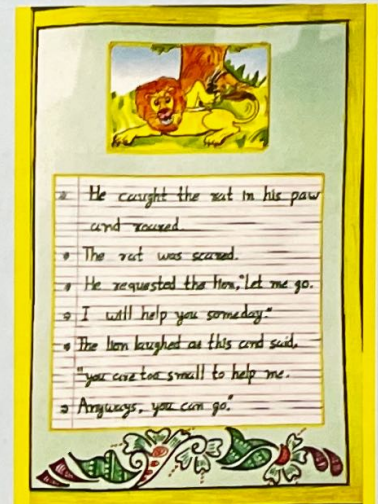

Moral of the story- "DO NOT BE GREEDY"

- Prajapati Freya (4th Mercury)

Picture Story

- A lion was sleeping under a tree.
- A naughty rat came and started to jump on the lion's body.
- The lion got disturbed.

- He caught the rat in his paw and roared.
- The rat was scared.
- He requested the lion, "let me go. I will help you someday."
- The lion laughed as this rat said, "you are too small to help me. Anyway, you can go."

- One day, the lion was trapped in the hunter's net.
- He roared loudly.
- Hearing his voice

- The rat came out of his hole.
- He quickly gnawed the net and set the lion free.
- The lion said to the rat, "Thank you I was wrong. Even too small creatures can do a big job."

- Prajapati Pakhi (1st Olive)

My Favourite Quote

“DREAM IS NOT THAT WHICH YOU SEE WHILE SLEEPING;
IT IS SOMETHING THAT DOES NOT LET YOU SLEEP”.

– Dr. A.P.J. ABDUL KALAM

No matter how many years we live, the thing which really matters is how unique you are from others, what you have done which no one has done before, what you have done that people remember us for. Success is not a destination; it is a journey full of hard work, sacrifice, patience and discipline. If we talk about students some may think about their future and some may not. Our knowledge, our behaviour, and our attitude matters. No matter what people say about us, they will always judge us by our status but they will not notice that how much hard work we have done or what sacrifices we have made to achieve that.

No matter how big friend circle we have, if they do not help us during our hard times, it has no value. We have to work hard for best future because no one will come to do it for us. No one can achieve their goal at once, many times you may fall but every time rise up until you reach your goal. FAIL stands for 'First Attempt In Learning'. The real fool is not the one who makes mistakes, but the fool is the one who does not learn from his/her mistakes. Teachers give us knowledge and open the door of success, but we have to walk through it ourselves. We must convert our dreams into thoughts and thoughts into action then only success will knock at our door.

Remember, every successful person has a painful story, and every painful story has the successful ending. So, we must accept the pain and work hard for a successful ending.

- Puvar Hetvi (8th C)

SOCIAL MEDIA BANE OR BOON

Social media is a name that everyone is aware of. In simple word, we can define social media as a platform that allows users to share photos, videos, texts or calls. In 1997 the first social media platform by the name six degrees was launched, gradually other platforms came into existence. Some famous social media platforms that encounter a large number of users today are Instagram, Facebook, WhatsApp, Twitter etc. Social media is a great way of entertainment. Many people feel peer pressure just because they wonder to have lifestyles like their friends and known ones. It creates a sense of FOMO, Fear Of Missing Out. Apart from these today people from different places can connect with each other. This is possible only because of social media but social media is also a great source of spreading fake news.

- Singh Siddhi (7th Oak)

Too much of anything isn't good. We must be aware of the repercussions of over using social media. We should always remember to take a break and focus on our own lives instead of everything what we see on the internet. Social media can be a great platform to stay connected with people, but it is important to find the right balance so it doesn't have an adverse effect on our mental health.

- Solanki Hardi (8th D)

Our social media journey shouldn't be one of exhaustion, but of mindful exploration. It's important to remember that we're in this together. That's why we must take time to pause and reflect on how our actions shape our lives and the lives of those around us. So let's take a break from the constant scrolling and instead use social media as a way to connect with others by having meaningful conversations.

FUTURE OF EDUCATION

Artificial Intelligence

Artificial Intelligence enhances the quality of education. Over the last decade, there are several challenges of learning, including language processing, reasoning, planning, and cognitive modeling have been both addressed by the artificial intelligence applications. In fact, education and Artificial Intelligence have been made for each other. Whereas, education is a means to develop minds capable of leveraging the knowledge pool, while Artificial Intelligence provides tools for developing a more accurate and detailed picture of how everything works.

There are many advantages that artificial intelligence provides like tutoring, grading, personalization in education, immediate feedback to students, etc.

Smart content creation, from digitized guides of textbooks to customizable learning digital inter faces, are being introduced at all levels. Artificial intelligence helps us to find out what a student know and does not know to build a personalized study schedule for each learner considering the knowledge gaps.

AI brings the ability to have 24 hours access to teachers and lessons anytime, anywhere. Thus can be used as an educational tool that guides students towards their goals by providing personalized feedback on homework, quizzes etc based on AI algorithms. Artificial Intelligence has the potential to make everyone's life easier through automation as it can do menial tasks, so you don't need to spend time doing mundane activities like organizing emails or finding files.

'The future of education is here!'

- Prajapati Raavi (5th C)

POEM

Unique Lion

A lion with unique courage,
with a long moustache,
with sharp pointed teeth,
who shakes everyone's heart,
move away, the lion has come,
run away, the lion has come.

- Sandhu Gurnurkaur (1st Olive)

Nature

Nature is might
Nature is strong
Nature is Beauty
Nature is moody
Nature is smart
Nature is blue
Nature is green
Nature is true
Nature is you, Nature is me
Nature will forever be free,
Nature will forever be free

Guess the following words from the symbols:-

(1) (2) (3) (4)

1. Fruits, Vegetables, Mushrooms, Eggs, Fish
2. Nutrients, Proteins, Calcium, Fats, Vitamins
3. Punctual, Honesty, Humanity, Cleanliness, Discipline
4. Yoga, Exercise, Healthy, Walking, Dance

TEAMWORK MAKES THE DREAM WORK

*"Coming together is a beginning.
Keeping together is progress.
Working together is success."*

The above proverb by Henry Ford can very well highlight the importance of working together in teams. The ability to work in teams is one of the most vital soft skills that often taught in universities to be applied in the business world as well as required in professional life.

Nowadays, teamwork is an essential element of the society and plays an important role in assessing one's ability in various kinds of career. Teamwork is not only reflected in a team's success, but also in individual growth. Skills such as problem solving, communication, collaboration, interpersonal skills, social skills and time management are actively being targeted by prospective employers as an essential requirement for employability, especially in a team environment. Of these, employment authorities consistently mention collaboration and teamwork as being a critical skill, essential in almost all working environments.

Helaiya Moksha (6th B)

When two or more people come together to complete a task then it is termed as teamwork. Teamwork is one of the most important necessity of working in an organization. Teamwork helps to learn essential lessons like trust and dependency on people. You have an opportunity to learn from other people when you are working in teams. Teamwork can be seen in sports, in - office work, in dance, choir, etc. Teamwork is the unbreakable strength of every task. Teamwork makes the task simple and reduce efforts. Teamwork is the necessary pillar of every field and it is the key to success and make growth.

Majumder Piyu (7th Oak)

Teamwork, Teamwork

Together we can make our dream work
Then we' ll share the joy of what we have done.

Teamwork, Teamwork, everyone !

There is no game without teamwork
And working together is much more fun.

Teamwork, teamwork, everyone.
