## A Piece of life but not too short

Dear readers,  
Greetings of the day.

"Make each day your masterpiece"

- John Wooden

Life is so marvellous for its unique features and colourful combinations. When we are gifted with a day of life that is the kindness bestowed by the creator. It is not an easy task to live a day error free. It is impossible. The fact is that each one of us are filled with hidden potentialities and skills that are to be exposed in our problem solving efficiency for better decision making. Once we start the day we can't predict the next moment of the twist of life. It gives experience and uncovers the feelings with abundance of surprises.

Live in the moment by doing mindful work and that requires a beautiful mind set. A kind word and a right action which embark your journey is unforgettable. Well, nothing costs for this but you will achieve and experience a little inner peace and a spark of happiness throughout the day. Remember, every day is a second chance of life. Sometimes life may not give permission for the next chance also.

With your immense treasure of strong will power and unbeatable enthusiasm make the day a masterpiece, a micro level goal oriented capturing. You are the batsman of your day by focusing on winning. Your strong mind is not for miles but for conquering extra miles.

Stay safe and healthy.

Dr. Saleena Nair

# “The Dynamic Duo: Healthy Competition and Collaborative Spirit”

Competition motivates people and teams to be better, stronger, smarter and faster. It also fosters innovation and creativity. Collaboration encourages us to work together towards a common goal, promoting communication, teamwork and the capacity for appreciating various viewpoints.

**Panchal Akshil** (5<sup>th</sup> Earth)

Competition and Collaboration need not be opposing forces. Rather, they can be two sides of the same coin, working hand in hand to create a truly enriching experience. As we step into the future, let's remember that the hidden ingredient in the recipe for success isn't just competition or collaboration—it's the magic that happens when they blend together, enhancing the flavour of our educational journey.

**Sharma Priyam** (8<sup>th</sup> A)

For a bright future, it is essential to explore the balance between healthy collaboration and friendly competition.

## Fostering Collaboration:

- Encourages teamwork and mutual support
- Promotes diversity and respect for others ideas
- Enhances communication skills and empathy
- Cultivates a sense of belonging and community

## Embracing Competition:

- Sparks motivation and drive for improvement
- Instills resilience and perseverance
- Encourages goal-setting and self-discipline
- Celebrates individual achievements while respecting others efforts

Prayer done with a clean heart and intentions helps to generate good energy and it changes the bad energy into good energy. So, imagine the amount of good energy you can create by praying and how that can be channelized for healing.

We should pray every day and should be thankful to God. God has given us everything that we need. God always hears our prayers.

Prayer is a communication between man and God. With the prayer we can talk, express our joy and share our problems. Prayer reduces stress and it is always answered. It is a common practice in every religion and it is a spiritual exercise for emotional health. Prayer changes our attitude and brings hope. We should pray early in the morning and before going to sleep and thank God for everything in our life.

# “Empathy in Motion: Compassion in Action”

## The Heartbeat of humanity

Compassion in action refers to the practical application of empathy and kindness in addressing the needs and suffering of others. It involves actively engaging in altruistic behaviors and initiatives aimed at improving the well-being of individuals or communities. This can manifest in various ways, such as volunteering time and resources, providing emotional support, advocating for social justice or initiating acts of kindness. Compassionate actions are driven by a genuine desire to alleviate suffering and promote positive change, often transcending personal interests or biases. Through compassion in action, individuals and groups can foster a more empathetic and supportive society contributing to greater understanding, solidarity and resilience within communities.

Compassion often comes in one of two forms, which vary depending on where these feelings are directed. Your experience of compassion may be either directed toward other people, or it may be directed inwardly toward yourself:

**Compassion for others:** When you experience compassion for other people, you feel their pain and want to find a way to relieve their suffering. These feelings compel you to take action to do what you can to make the situation better.

**Self-compassion:** This involves treating yourself with the same compassion and kindness that you would show to others, rather than beating yourself up over mistakes you may have made in the past, you feel understanding, mindful and accepting of yourself and your imperfections.

An example of compassion in action could be a community organizing a food drive to support families experiencing food insecurity. Members of the community come together to collect donations of non-perishable food items, organize distribution logistics, and volunteer their time to ensure that those in need receive assistance. This initiative demonstrates compassion by addressing a basic human need and providing tangible support to vulnerable individuals and families within the community.

Compassion in action embodies the essence of humanity at its best. By extending empathy and kindness to others, we create ripples of positive change that resonate far beyond ourselves. Let's keep the momentum going and make compassion our daily practice.

## “Our School, Our Responsibility”

We students are the heartbeat of our school each one of us place a vital role in shaping the culture. Our school is our second home, and with that comes a profound sense of responsibility towards its well being and growth.

It is our responsibility to maintain kindness, empathy, cleanliness both inside and outside the classroom. It is also very important to uphold the values and standards of our school. We should create an environment where everyone feels valued and supported in their academics and personal pursuits. We should try to attend our classes properly, actively participate in co-curricular activities and focus on academics.

Furthermore, we must take care of the physical environment of the school which includes keeping our classrooms corridors and common areas clean and tidy, respecting the school property and following safety protocols. Other than this we should also support and uplift our fellow classmates by offering them helping hand in terms of studying and other things.

In conclusion our school is not just a place where we go to learn, it is a shared responsibility and a community effort. By embracing our rolls as students and actively contributing to the well being and success of our school, we can create a positive and enriching environment where everyone has the opportunity to thrive and succeed. Together we can make our school a place we are proud to call our own.

## GRANDPARENTS

Grandparents are delightful blend of laughter,  
caring deeds Wonderful stories, and love  
Grandparents are special people  
with wisdom and prides.  
They always offer love and kindness  
and are always there to guide.  
They often make you feel  
so confident and strong.  
Their arms are always open  
No matter what you did wrong.  
They try to help out  
in every way that they can.  
They love all their grandchildren  
The same whether you're a child, woman or man.  
They are always there to listen  
and to lend a helping hand.  
They show you respect and they try to understand.  
They give their love, devotion and so much more,  
that's easy to see  
Grandparents,  
what perfect example  
of the kind of person that we should be.

## Students' View

Greetings to the readers,

My name is **Deep Raval**, currently studying in class 12<sup>th</sup> in M.B. Patel English Medium Secondary and Higher Secondary school. Kadi campus is very special for me because I had completed my all the three phases of schooling i.e. kindergarten, primary and high school in this campus.

The longest and the most important schooling phase is primary education. I am really very grateful and I consider myself lucky to study in S.G. English Medium Primary School. S.G. built my character, S.G. gave me identity, and S.G. believed in me and made me capable of who I am.

This school focuses on the overall development of the students. On one hand you will get great academic teachings from the well-trained staff and on the other hand you'll get access to the co-curricular activities at Lalitkala center and ATAL tinkering lab. S.G. School has developed leadership quality inside me by the means of student council. I was honored to serve as the Head Boy of the school during the academic year 2019-20. Inter class and Inter house activities motivate students to explore various things and topics. Today, if I'm a good speaker that's because of S.G. If I'm good at academics, that's because of S.G. I still cannot forget those memories we made in class, in the library and on the ground.

This is my last year of schooling but, this campus will always have a special place in my heart.

Thank You.

I, **Kamaljeetsinh Chavda**, always feel proud to introduce myself as student of "Sarva Vidyalaya Kelavani Mandal, Kadi."

The warm welcome I got when I started schooling in Smt. S. G. English Medium Primary School and it is something that I can never forget. During primary schooling days I learnt something new every day. It helped me to gain understanding and to succeed not only in studies but also in co-curricular activities.

I still remember participating in various activities like Annual Function, Sports Day celebration, class activities and so on with my friends. These activities helped me to learn many important qualities and aspects required in our life like leadership, kindness and care for others.

My school life in Smt. S. G. English Medium Primary School was filled with lots of excitement and love. It made me understand the value of time and became a wonderful chapter in my life. It also helped me learn dedication and self actualization. My teachers and Principal always motivated me and pushed me to achieve my best is a big part of what I am today.

It is a great pride for me to be a part of such an esteem institution which had served the nation more than a century. This Institution had played a vital role in building generations of character.

I will be always thankful to our Management "SARVA VIDYALAYA KELAVANI MANDAL" and "Smt. S. G. English Medium Primary School" for taking special care in building my character and career simultaneously.

In return, I can just give promise that wherever I will be in my life I will always serve with the same motto of our esteem institution "Kar Bhala Hoga Bhala."

School serves as the first learning place for most of the people, similarly S.V. English Medium Primary School has been the first spark in receiving education for me.

It is the place where I learn, taught, smile, play and enjoy, what else we need in life being a student.

Principal, teachers and all staff members of the school are very co-operative and caring.

I am thankful to all my teachers. I learnt so many things and improved my knowledge.

In school with education, I have also learnt so many things by activities happening here like Chhaganbha Essay Writing Competition in which students get knowledge about our establishment of Institution. Science Exhibition in which students learn so many things about Science. By Field trip we have learnt practically by visiting Industries.

VENCY MAVAR - (8<sup>th</sup> Oak)

School is a fun and exciting place where I Love to go every day. Teachers at my school make learning enjoyable and interactive. I get to do cool experiments in the Science lab and learn about the world around me. My school celebrates different cultures and we have fun events and festivals. Teachers at my school are kind and helpful, and they always support us. My school is like my second home, and I am grateful for all the amazing experience it has given me. And one interesting thing that our founder Shri Chhaganbha had given the slogan that "Do Good, Good will come back to you". I will follow this slogan throughout my life....

# STANDARD OF LIFE

In the intricate tapestry of human existence, standards of life form the very fabric upon which our well-being is woven. These standards encompass various dimensions, ranging from economic prosperity to social cohesion and personal fulfilment. Understanding and striving towards elevated standards of life is not just a pursuit of luxury but a fundamental human aspiration towards a more fulfilling existence. At the heart of standards of life lies economic stability. It's the cornerstone that supports access to basic needs such as food, shelter, healthcare, and education. A robust economy provides opportunities for employment, entrepreneurship, and upward mobility, ensuring individuals can not only sustain themselves but also thrive.

Standard of living in tangible, quantifiable term that refers to factors available to a certain socioeconomic class or geographic area. Quality of life is a subjective term that can measure happiness. Both can be followed indicators because the factors can vary between people in the same socio-economic class or geographic area.

A society's true progress is measured not by the wealth of a selected few but by the well-being of all its members. Standards of life necessitate social equity and inclusion, where every individual, regardless of race, gender, religion, or socio-economic background, has equal opportunities and access to resources. Empowering marginalized communities and fostering a culture of inclusivity enriches the social fabric and strengthens the collective bond.

Beyond material wealth, standards of life encompass cultural enrichment and personal fulfilment. Access to arts, education, recreation, and spiritual fulfilment nurtures the human spirit and adds depth to our existence. Embracing diversity, celebrating heritage, and fostering creativity cultivate a rich tapestry of experiences that elevate our quality of life.

Standards of life serve as guiding principles in our quest for individual and collective well-being. By prioritizing economic stability, social equity, health, environmental sustainability, and personal fulfilment, we pave the path towards a more prosperous and harmonious society. It's not just about living, but about thriving, and standards of life provide the framework for a life truly worth living.
